PROFESSIONAL FINISHING

These devices keep pace with the toughest office schedules, delivering performance and quality

with professional finishing. Powerful security and

a future-proof investment.

unbeatable environmental credentials combine for

Productivity and quality hand in hand

- Unrivalled user experience through a large 21.3 cm (8.4 inch) colour touch-screen
- Personalisation through user-defined one-touch buttons to simplify and automate common tasks
- A 300-sheet one-pass duplex scanner captures paper documents at speeds of up to 200 ipm
- Standard support for data formats such as Searchable PDF and Office Open XML (PowerPoint and Word) enables re-use and re-purpose of digital content
- True 1200 x 1200 dpi resolution, pQ toner and automatic colour adjustment ensure great image quality
- Optional Fiery-based ColorPASS-GX400 or imagePASS-A2 controllers enhance processing, job management, workflow automation and accurate colour reproduction
- Professional finishing options staple, saddle stitch, punch, trim, fold and insert for versatile document creation
- Support for mobile working.

Cost Control

- Scalability allows the device to adapt to your changing needs
- User activity tracking provides visibility of print behaviour
- Apply policies and restrict usage at function level by user
- Cost centre job accounting and rule-based routing for cost optimisation with uniFLOW
- Efficient device monitoring, reporting and diagnostics for proactive maintenance and maximum uptime.

Device and Information Security

- Smart user authentication enables controlled device access without impacting convenience
- Disable functions per user to prevent unauthorised usage
- Secure print and Mailbox ensure document confidentiality
- A variety of standard and optional security features protects device, network and documents
- Integrates with uniFLOW Data Loss Prevention solution providing auditing of prints, scans, copies and faxes.

Integration

- Integrates seamlessly into your network and enterprise solution
- Collaborates with business applications and external systems in the Cloud
- Through the embedded MEAP platform the device integrates tightly with a range of powerful capture and document management solutions such as uniFLOW or eCopy
- Easily configure, manage and upgrade your device, whether individually, or as part of a larger fleet using Canon's device management tools.

Sustainability

- Class leading Typical Electricity Consumption (TEC*) ratings
- Consumes as little as 0.9 W in sleep mode
- Incorporates recycled materials and bio-plastics
- ENERGY STAR® qualified.
