

Document, photo and film scanning with style and speed.

High Range

Featuring 4800dpi resolution and USB 2.0 Hi-speed connection, the CanoScan 5600F delivers brilliant, fast scans at high definition with its white LED scanning. A host of additional features including convenient batch scanning of 6 frames of 35mm filmstrip and 4 frames of 35mm slides and with film automatic retouching and enhancement (FARE level 3) technology it makes scanning even easier.

Key Features

Advanced Imaging Technology

- Zero warm-up and lower power consumption with white LED for high brightness
- 4800 x 9600 dpi optical resolution with 48-bit depth provides excellent image quality³
- Moving backlight film adaptor unit ensures higher quality scans without sacrificing speed.
- The built-in film adaptor unit can scan up to 6 frames of 35mm filmstrip in a single pass, 4 mounted 35mm slides

Scanning Made Easy

- Multi-Scan mode scans multiple images at once, there is no need to perfectly align the images as the software automatically detects, straightens, and creates a separate file for each image
- 7 one-touch buttons create an image file, colour copy¹, searchable PDF or an email in one easy step.
- Automatic film or reflective scanning detection capability – electronically determines scanning method required according to nature of item being scanned.
- Multi-page PDF with search function supports full-text searches and multiple page PDF files
- FARE Level 3 technology uses both infrared scanning and software to clean up film scans with exceptional accuracy. Removes dust and scratches as well as correcting fading, graininess and backlit images. Choose from low, medium and high correction levels.

Professional Results with Easy to Use Software

- ScanGear Toolbox allows users to save common scanning settings such as resolution and OCR scanning so scanning operations are simplified.
- Use CanoScan Toolbox to scan A3 or B4 size documents – scan each half of the document, manually align the two halves and then save as a merged file.

Quality Scans³

High quality scanning up to 4800 x 9600 dpi high resolution and 48-bit superior gradation

Fast Data Transfer⁴

USB 2.0 Hi-Speed interface for fast data transfer

Ultra Fast Scanning⁵

Fast book scanning with preview at 3 seconds

Clear Scans

Automatic dust & scratch, fading and graininess correction. Backlight correction available.

Easy Operation

7 one touch buttons Scan / Copy / PDF / E-mail for easy operation

Film Scanning

Continuous scanning of up to 6 frames of 35mm filmstrip or 4 mounted slides

Optimum Film Scanning

FARE Level 3 for optimum film scanning and backlight-style Movable Light Source Film Scan Unit

Instant Warm Up

Allows operation virtually the moment the scanner is turned on

Canon Connectivity

Easy connectivity between Canon Scanners and Canon Inkjet Printers means one-button colour copies direct from scanner, via the PC to the printer in an instant
