Rising above

Océ TDS750 multifunction printer

Fast, easy, dependable large format system

Rise above your current large format capability with the Océ TDS750 multifunction printer. Print, reproduce and store technical documents faster and easier, with higher quality than ever before. The Océ TDS750 is ideal to address the demanding deadlines required in a peak performance departmental print setting or a productive, central print room environment. Based on the multi-award-winning Océ TDS700, you can count on the Océ TDS750 for long-lasting performance and consistent results for years to come.

Today the most advanced architectural, engineering and construction companies count on Océ systems to build the world around us. Their creations rise above past developments and create innovative new masterpieces. The Océ TDS750 also rises above, enabling customers to do more, with Océ expertise, quality, reliability and support making the difference in each system.

Océ TDS750 multifunction printer

Fast - productive, peak performance

The Océ TDS750 provides the fastest print output from a cold start with the instant-on behavior of the Océ Radiant Fusing technology. Receive over 27 A1/D size prints, before others have even started printing. Meet even the most challenging deadlines with the consistent 9 D/A1 prints per minute even when printing mixed sizes. Activate automatic behavior or manually manage print jobs to ensure document sets are produced as required, in a timely manner. Scan and copy as-builts, color markup and other technical documents in one quick and easy step for immediate archiving and distribution.

Easy - intuitive, ergonomic features

The Océ TDS750 is designed with the user in mind. Everything from media roll placement and toner loading to print job management has been carefully designed to be ergonomically correct and intuitive. The green button approach to scanning offers great quality output at the touch of a button. Get results right the first time with no need for troubleshooting. With the environmentally-friendly Océ Radiant Fusing technology, the Océ TDS750 can be comfortably placed within a departmental print setting thanks to its low noise, ozone and heat emissions.

- 1 Time-saving Océ Radiant Fusing technology**
- Instant printing with NO warm-up required and low energy usage
 - Quiet operation without the need for cool-down ventilation

- 2 Maximized output**
- High output capability with standard 2-roll plus cut sheet tray
 - Up to 6 media rolls for over 1200 m² of uninterrupted printing
 - Field-upgradeable to grow with your future needs

- 3 Exceptional output quality**
- Updated 600 x 1200 dpi pico printing provides the sharpest fine lines and uniform area fills
 - Drawings or renderings have crisp gray lines and smooth shading

- 4 Simple media loading**
- Automatic media feed/cut reduces time spent loading media
 - Cutter in each drawer ensures consistent printing speed
 - Roll loaders minimize back strain while loading media

- 5 Easy closed toner system**
- Top, easy-access toner refilling
 - Closed system keeps toner inside and minimizes mess
 - System is clean and runs optimally since waste toner is captured and removed

- 6 Efficient output delivery**
- Compact top delivery tray provides neat stacking of up to 100 originals
 - Collated output is received without expanding the operational footprint

Fast, easy, dependable large format system

Superior scan technology

- Optimal quality and reliability for monochrome and color scanning
- A single CCD camera ensures consistent image quality, even with transparencies or folded drawings

Effortless scanner templates

- Scan/copy templates for commonly performed actions
- A single button for quick and easy scan/copy

Consistent color scanning

- Océ Color Image Logic provides right-first-time results
- Automatic compensation offers clean digital images even with demanding originals

Ideal productivity

- Fast processing on the controller frees the scanner quickly
- Improved workflow with one step digital file and multi-copy creation

Reliable integrated folding

- Bi-directional communication directly between finisher and printer with a truly integrated folder
- Print job submission options are inline with available folding capabilities

Dependable - consistent quality

Thanks to the 600 x 1200 dpi pico printing and the superior scan technology of the Océ TC4 scanner, the Océ TDS750 provides exceptional, consistent output quality. Scanned images accurately capture all the proper information with precise color representation. Have confidence that the print/copy/scan quality of even your most demanding architectural and engineering renderings will be consistent and at the highest level, with the Océ TDS750.

Dependable - reliable system that stands the test of time

The Océ TDS750 is an incredibly reliable system. It is built to last with durable, hard-wearing parts, and offers dependable uptime with fewer jams, shorter downtime and fewer service calls. With restricted controller access and system safe guards, the Océ TDS750 also provides a secure, productive print environment. Based on the proven Océ TDS700 system with thousands of satisfied customers worldwide, you can count on the Océ TDS750 system performance for years to come.

Printing for Professionals

Professionals everywhere look to Océ for digital printing and document management. In the office, Océ systems keep the information of business and government flowing. In manufacturing, architecture, engineering, and construction, Océ wide-format printers set the standard, while our display graphics systems help people produce banners, billboards, and other large, colorful applications. In corporate print facilities, marketing service bureaus, and the graphic arts industry, Océ systems print transaction documents, mailings, newspapers, manuals, and books - on demand and at the highest speeds. And Océ Business Services manages the complete document workflows of customers around the world. It all helps you go "Beyond the Ordinary" in printing and document management.
