REAP THE BENEFITS OF **PRODUCTIVITY**, **VERSATILITY**, AND **HIGH QUALITY**

The imagePRESS C910 series is a true, light- to mid-volume production press that incorporates advanced technologies to help print establishments achieve amazing results—all in a small footprint.

imagePRESS **C910/C810/C710**

Incorporated into this colour digital press is Canon's passion and unique understanding of imaging, photography, colour science, and workflow. This expertise has resulted in a high-quality digital press that's both productive and versatile for printing establishments of varying shapes and sizes.

- Outstanding Productivity
- Production speeds of up to 90 ipm
- Maintains rated speed on uncoated stocks up to 220 gsm
- 7,650-sheet¹ feeding capacity with up to six different sources

- 2400 x 2400-dpi print resolution utilizing the unique R-VCSEL imaging technology
- Intuitive calibration process that uses
 internal sensors to measure test patches
- Translucent CV Toner produces vibrant images on a wide variety of stocks
- Multi D.A.T. helps to achieve consistent colour across long runs automatically

- Support stocks up to 350 gsm
- Runs a variety of envelopes and long sheets up to 1300 mm
- Helps achieve highly accurate and consistent registration, even on large and heavy stocks
- Coated support from 85 gsm

MAXIMIZE YOUR THROUGHPUT

Reach impressive production speeds of up to 90 letter-sized impressions per minute and allow your operators to tend to crucial tasks while the press auto duplexes heavy and thick stocks up to 350 gsm. Cover³ and longsheet stocks up to 1300 mm in length.³

Keep the press running and maintain a steady workflow with the ability to replace paper and toner without having to stop for unnecessary routine tasks.

Stay productive on standard and mixedmedia jobs without sacrificing quality, allowing you to produce a wide range of applications from a single, versatile engine.

A combination of digital sensors, together with registration rollers, help to ensure that even heavy and large sheets are accurately and consistently positioned.

STAND OUT WITH CONSISTENT AND ACCURATE COLOUR

DETAIL DOWN TO THE DOT

Output crisp, colour images with remarkable clarity at high speeds with the imagePRESS C910 Series' state-ofthe-art R-VCSEL laser technology at 2400 X 2400 dpi and 190 lpi.

OFFSET-LIKE PRINT QUALITY

By allowing the surface properties of your media to show through Canon's translucent CV Toner, the press can produce amazingly vibrant and vivid images across the entire sheet surface on a wide variety of stocks.

READY FOR SMOOTH AND ROUGH SURFACES

The combination of its flexible transfer belt and Simple Transfer Adjustment technology allows toner to fill in the peaks and valleys of your textured and embossed stocks, producing high-density images for custom and premium applications.

AUTOMATIC COLOUR CORRECTION

Once initiated by your operator, the colour digital press performs a real-time press calibration automatically, helping to deliver repeatable, high-quality output with minimal effort.

OUTSTANDING STABILITY

Maintaining a consistent environment and automatic measuring of multigradation density patches combine to help ensure that your highlights, midtones, and shadows are reproduced to your high expectations.

CHECKING THINGS TWICE

Every dot is imaged twice, helping to produce accurate, superb quality across long runs and throughout the life of the drum.

³ Optional accessories required

EXPERIENCE END-TO-END INNOVATION

COMPACT REGISTRATION UNIT

Designed to achieve highly accurate, front-to-back and sheet-to-sheet registration across long runs on large, heavy, and stiff stocks—all in a small compact design.

P-VCSEL LASER TECHNOLOGY

Advanced 32-beam red VCSEL laser delivers 2400 x 2400 dpi, outputting detailed colour images with outstanding definition at high speeds.

MULTIEXPOSURE TECHNOLOGY

Laser writes every dot on the drum twice when creating images, which helps maintain high image quality consistently across long production runs.

4 TRANSLUCENT CV TONER

Helps produce consistent, vivid, and crisp images on a wide range of media with a realistic, offset-like finish.

ADVANCED IMAGING TRANSFER BELT

Flexible belt presses the toner into the media, enabling a high-density image transfer onto embossed and textured stocks.

ADVANCED TWIN-BELT FUSING TECHNOLOGY

Innovative induction heating and cooling technologies use two belts that allow the press to fuse at a lower temperature and produce complex jobs at high speeds.

AUTOMATIC COLOUR CALIBRATION

Intuitive engine calibration feature uses an in-line sensor to read colour test patches automatically, helping to minimize operator error and achieve brilliant and predictable colour.

PRODUCE A **BROAD ARRAY OF PRINT PRODUCTS**

FINISHING OPTIONS

Professional Punching and Creasing

This module enables insertion of slip sheets or preprinted covers for booklets and complex jobs.

Professional Punching and Creasing

•		
۰		
۰		
٠		
٠		

The numerous die patterns offered for in-line hole punching and creasing help minimize toner cracking on the spines of saddlestitched booklets.

Perfect Binding

Using hot glue, this module binds covers to book blocks of up to 400 pages⁴ and can trim on all three sides for full-bleed books or manuals.

High-Capacity Stacking

Γ		
L		

Realize maximum productivity with unload-while-run capability, helping to provide uninterrupted printing with stacking up to 6,000 sheets.⁴

Paper Folding

Offer promotional pamphlets, brochures, and more with the ability to produce Z-fold, C-fold, accordion fold, and double-parallel fold documents.

Staple and Saddle Finishing

~	~
	· · · ·
	2

Corner staple up to 100 sheets⁴ in stacks of 5,000 sheets⁴ or saddle-stitch up to 100-page booklets⁴ in paper sizes up to 330 x 483 mm. A side jogger helps keep media in straight or offset stacks.

Booklet Trimming

Help maintain high productivity with a large-capacity trim waste bin and on-the-fly waste removal for continuous production. These modules can combine with the Booklet Finisher to help users produce professional, full-bleed booklets in-line.

Finisher Bridge

Connect the SDD or Plockmatic professional booklet-makers to the Staple Finisher without having to sacrifice corner stapling or 2-/3-hole punching.

FEEDING OPTIONS

Multi Drawer Paper Deck

Equipped with air-assist and air-separation, each drawer supports up to 330 x 483 mm and 350 gsm Cover. The 6,000-sheet⁴ capacity allows jobs to run with minimal interruption.

POD Deck Lite

Designed for locations with space restrictions, this deck's 3,500-sheet⁴ capacity with air-assist and air-separation supports paper sizes up to 330 x 483 mm and envelopes in a range of sizes.

POD Deck Lite XL

In addition to the capabilities of the POD Deck Lite, this feeding option holds up to 1,000 sheets⁴ of media up to 1300 mm in size—optimal for six-panel brochures, book covers, and posters.

⁴ Capacity based on 85 gsm Bond.

STREAMLINE WORKFLOW WITH CUTTING-EDGE PRINT SERVERS

A SINGLE POINT OF CONTROL

Canon's PRISMAsync Print Server and PRISMAsync Print Server LP consolidates control of your production workload into a single hub. Whether preparing simple jobs such as scan-to-file or complex jobs that require mixed media, you can easily perform a range of tasks from a single consistent interface.

MANAGE JOBS INSTINCTIVELY

With PRISMAsync Remote Manager, operators can edit job properties, manipulate colour curves, manage queues, submit print jobs, and even reroute jobs among multiple PRISMAsync-driven engines. This web-based, multipress solution provides remote monitoring from either your workstation or mobile device on your network.

FLEXIBLE COLOUR CONTROLS

The PRISMAsync Print Server incorporates an embedded in-RIP G7[®] calibration method.⁵ Without a need for third-party software or complex procedures, operators can quickly and easily calibrate, profile, and verify their imagePRESS C910 Series colour digital press to help achieve a near-neutral print condition. It also incorporates flexible colour correction capabilities such as CMYK curve editing and digital moiré reduction with immediate visual feedback via the realistic Pixel Precise Preview.

INTUITIVE OPERATION

Stay in control of your daily workload with up to eight hours of plan-ahead production with Job Scheduler, where it will intuitively display time to completion of jobs and upcoming interventions for media, toner, or staples. Prepress and production tasks are intuitively clear with a highly visual user interface design. Templates, automated workflows, and hot folders allow for the managing of daily routine tasks.

BE MORE PRODUCTIVE

With the ability to easily produce jobs with mixed paper sizes, paper types, and finishing as well as powerful spot colour management and advanced colour utilities, this controller can quickly help users modify routine job properties. It also supports a wide range of corporate network environments with numerous network security features.

EFFICIENT JOB MANAGEMENT

An intuitive print management interface for the imagePRESS server, Command WorkStation® centralizes and helps simplify job management. Operators can monitor and direct jobs, automate workflows, and preview and adjust documents.

FIERY[®] SPOT-ON[™] COLOUR MATCHING

The powerful Spot-On utility helps remove the guesswork of colour matching, offering an intuitive interface that makes it fast and easy to define and modify spot colours.

MEDIA LIBRARIAN

Media Librarian is a paper management application designed for the commercial print sector that seeks to improve makeready productivity on the imagePRESS C910 digital presses powered by imagePRESS Servers H350/G250. Directly from the software, operators can create, edit, and organise their paper stocks from a single, intuitive interface.
