

Canon

imageCLASS® MF7460

(shown with optional cabinet)

A Laser Multifunction for the Small Office.

- Up to 25 pages-per-minute laser output
- Duplex versatility — automatic two-sided copying, printing and faxing
- 1/4 VGA Touch Screen Panel
- Canon UFR II-LT language support
- 33.6 Kbps Super G3 fax with up to 1,000 pages of reception memory¹
- 2 x 250-sheet cassettes plus 80-sheet multipurpose tray
- 11" x 17" platen
- 50-sheet Automatic Document Feeder²
- USB 2.0 Hi-Speed³ for optimal performance
- Single Cartridge System

All the elements
you will ever
need in a digital
multitasking
machine.

The imageCLASS® MF7460 incorporates a rich array of input and output features that can greatly enhance your efficiency. Equipped with features that meet the needs of document work in a digitized office, the ImageCLASS® MF7460 represents the ultimate in digital multitasking machines.

The imageCLASS® MF7460 copies and prints at up to 25 pages-per-minute for high-quality letter-size documents. A large supply of paper can conveniently be utilized from either two 250-sheet front-loading paper cassettes or the 80-sheet multipurpose tray. The multipurpose tray can accommodate a variety of sizes and types of paper stock such as bond, plain and color paper, transparencies, labels and envelopes for special projects.

Use the 11.75" x 17" platen glass for single-page originals or to copy 2 letter-size originals on to one 11" x 17" sheet of paper. The 50-sheet Duplex Automatic Document Feeder (DADF) allows for multi-page originals. The benefit of DADF is that it allows you to copy, and fax from one or two-sided originals and produce two-sided output.

Built for reliability and ease-of-use, the imageCLASS® MF7460, using Canon's exclusive Single Cartridge System, as well as years of fine-tuned copying and printing know-how, will attest to Canon's commitment to providing products with a level of quality and expertise that ensures your office runs effectively.

¹ Based on ITU-T #1 Chart (standard mode).

² Based on 20 lb. paper.

³ USB 2.0 Hi-Speed performance requires Windows®XP Service Pack 1 or Windows®2000 Service Pack 4 with pre-installed USB 2.0 port.

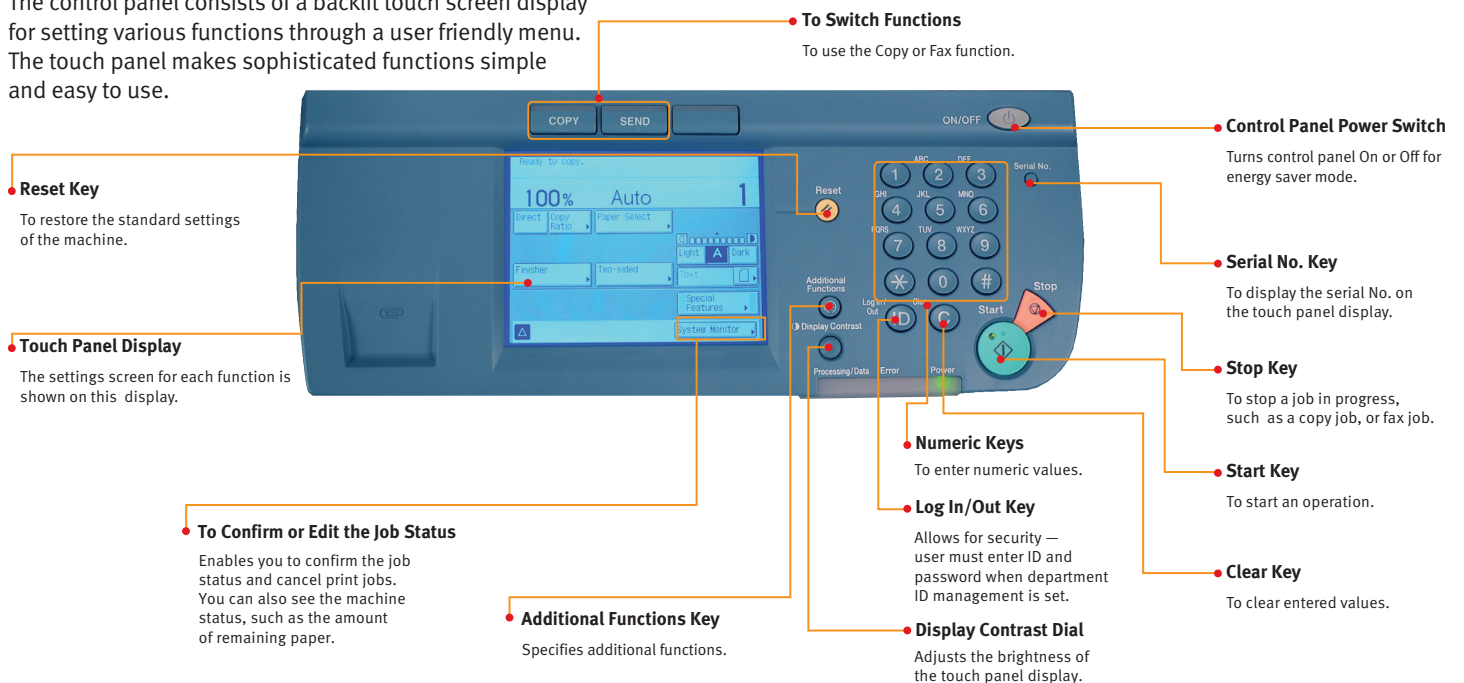

imageCLASS® MF7460

- a Duplex Automatic Document Feeder
- b Control Panel with Backlit Touch Screen Display
- c Internal Output Tray (no protruding output trays)
- d Extendable 80-sheet Multipurpose Tray Paper Tray
- e 2 x 250-sheet cassettes

Control Panel

The control panel consists of a backlit touch screen display for setting various functions through a user friendly menu. The touch panel makes sophisticated functions simple and easy to use.

An array of powerful features

What You Can Do...

Enlarge/Reduce an Image to Copy to a Different Size Paper

This function is useful when enlarging or reducing an original of one standard paper size to another, such as enlarging a letter-sized original to legal size, or reducing legal to letter size. Simply select the desired paper size from the displayed keys to automatically set the optimal zoom ratio.

Make Two-Sided Copies

When copying many single-sided originals, printing on both the front and back sides of paper can help you save half of the paper costs.

Copy Multiple Originals onto One Sheet of Paper

This mode enables you to reduce multiple originals or two-sided originals to fit onto one sheet of paper. This is useful for arranging a variety of originals on one sheet of paper for easy viewing and for saving paper and space when storing printouts.

You Get the Big Picture

Double your productivity with an 11.75" x 17" platen. You can fit 2 letter-size (8.5" x 11") documents onto one side of an 11" x 17" sheet or four onto two sides.

Copy Function

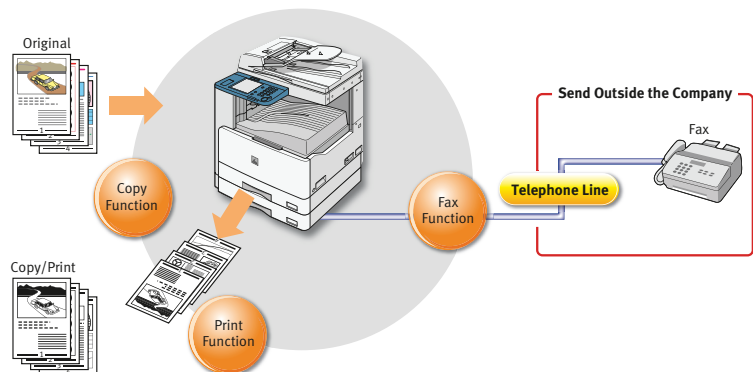

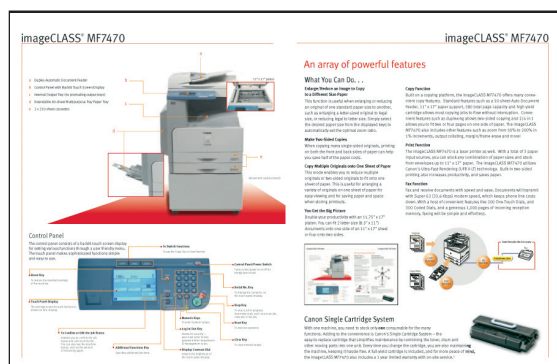

Built on a copying platform, the imageCLASS MF7460 offers many convenient copy features. Standard features such as a 50-sheet Auto Document Feeder, 11" x 17" paper support, 580 total page capacity and high yield cartridge allows most copying jobs to flow without interruption. Convenient features such as duplexing allows two-sided copying and 2/4 in 1 allows you to fit two or four pages on one side of paper. The imageCLASS MF7460 also includes other features such as zoom from 50% to 200% in 1% increments, output collating, margin/frame erase and more!

Print Function

The imageCLASS MF7460 is a laser printer as well. With a total of 3 paper input sources, you can stock any combination of paper sizes and stock from envelopes up to 11" x 17" paper. The imageCLASS MF7460 utilizes Canon's Ultra-Fast Rendering (UFR II-LT) technology. Built-in two-sided printing also increases productivity, and saves paper.

Fax Function

Fax and receive documents with speed and ease. Documents will transmit with Super G3 (33.6 Kbps) modem speed, which keeps phone line costs down. With a host of convenient features like 200 One-Touch Dials, and 300 Coded Dials, and a generous 1,000 pages of incoming reception memory, faxing will be simple and effortless.

Canon Single Cartridge System

With one machine, you need to stock only **one** consumable for the many functions. Adding to the convenience is Canon's Single Cartridge System – the easy-to-replace cartridge that simplifies maintenance by combining the toner, drum and other moving parts into one unit. Every time you change the cartridge, you are also maintaining the machine, keeping it hassle-free. A full-yield cartridge is included, and for more peace of mind, the imageCLASS MF7460 also includes a 1 year limited warranty with on-site service.⁶
