- Approximately 30 ink cartridges sets estimate is based on print yield of the included black and color ink bottles as compared to the following standard-capacity cartridge sets: PG-245 Black Ink Cartridge and CL-246 Color Ink Cartridge as of August 2016.
- Page yield of ink bottles used for initial setup is lower than the replacement, as a certain amount of ink is consumed to fill into the print head during the setup (charging the print head initially). Page yield is the estimated value based on Canon individual test method using the ISO/IEC 24712 chart and continuous printing simulation with the replacement ink bottles after initial setup. Page yield of color inks is an average yield of cyan, magenta and yellow inks combined. Page yield varies significantly depending on content printed and other factors. 6,000 (black) and 7,000 (color) printed pages yields are approximate, based off document pages printed.
