Perfect Slit, Cut, & Crease Finishing Solution for Digital Color Documents

- Up to 6 slits, 15 cuts, & 10 creases
- Up to 300 gsm paper weight
- Improved ± 0.3 mm accuracy
- Optional customization to fit needs
- Popular applications include full-bleed trimming, business cards, brochures, flyers, photographs, greeting/post cards, menus, & more

Duplo

D C - 6 1 5

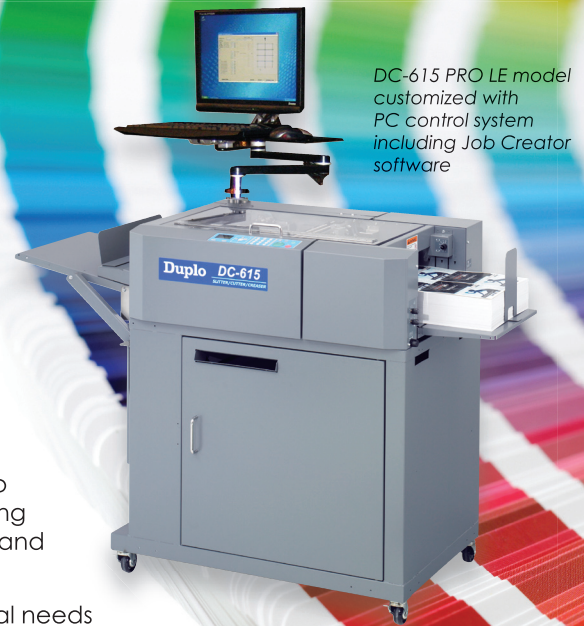

The Duplo DC-615 Slitter/Cutter/Creaser delivers extraordinary and innovative features combined into one device specifically for the users of digital color presses. No longer will digital color documents have unfinished, unattractive white borders and print cracking when using the DC-615.

The DC-615 can automatically slit, cut, and crease a document in one pass, making it the ideal finishing solution for the short-run, on-demand market. Users can quickly and easily produce professionally finished, full-bleed documents by simply loading the high capacity automatic feeder.

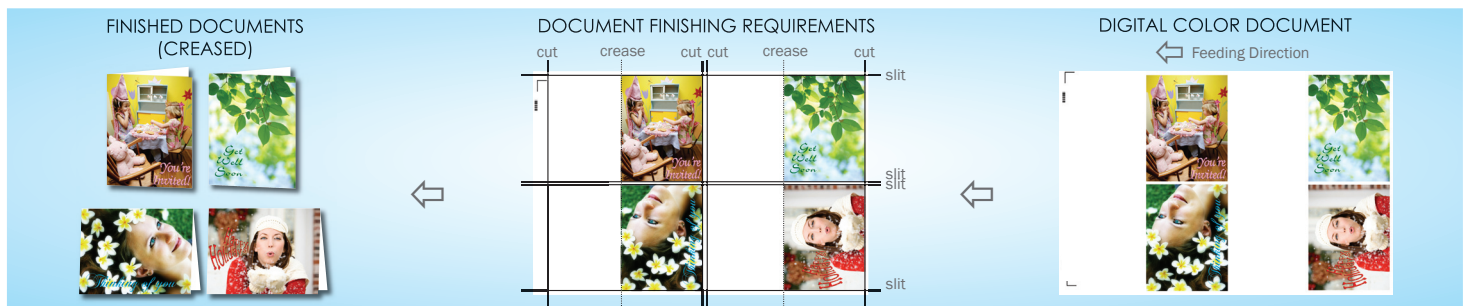

A powerful finishing system, the DC-615 makes it simple and economical to produce a variety of common applications including: business cards, greeting cards, invitations, brochures, catalogs, posters, book covers, photographs, and much more.

Never offered before, the DC-615 can be customized to each user's special needs by adding innovative, optional features such as ultrasonic double detection, Job Creator software, optional barcode reader, and card stacker. The optional barcode reader not only enables this unique system to recall pre-programmed jobs, but can also read an image registration mark ensuring precise output each time. This optional feature compensates for image shifts which may occur during inaccurate printing processes.

The easy-to-use DC-615 features an LCD control panel that guides the user through the setup of the slit, cut, and crease positions. With 80 memory settings, commonly used jobs can be conveniently stored. In addition, the automatic vacuum feeding system accurately feeds documents making the DC-615 a highly productive slitting, cutting, and creasing finishing solution.

DC-615 PRO LE model customized with PC control system including Job Creator software

Large user-friendly LCD control panel conveniently stores job names.

Margin, gutter slit, and gutter cut strips are automatically disposed in waste bin.

3.9"-capacity continuous automatic feeder allows for non-stop productivity.

Adjustable receiving tray accommodates longer finished sizes. Plexiglas® cover provides direct view of machine in operation.

specifications

Speed	Up to 11 pages per minute
Input Paper Size	8.26" x 8.26" to 12.6" x 18.1" (210 mm x 210 mm to 320 mm x 460 mm ²)
Min. Finished Size	48 mm x 85 mm
Tolerance	± 0.3 mm
Auto Feeder Capacity	3.9" (100 mm)
Paper Weight	110 - 300 gsm (30 lb. bond - 110 lb. cover)
Slitters	6
Cuts	15 per sheet

Memory	80 jobs
Standard Features	Air knife, fan registration ² , semi-automatic gutter slit deflectors ³ , 3-step crease depth adjustment
Options	Double-feed detection, CCD, card stacker, PC control system with Job Creator software; IFS
Power Requirements	120v 50/60Hz
Dimensions (LxWxH)	63" x 25" x 42"
Weight	291 lbs.

¹ Length can be increased to 650 mm when using optional long paper feed tray.

² Feed belts are set at a 2 degree angle towards the non-operator side which allows the paper to align properly before being processed through the machine.

³ Gutter slits must be between 5 - 15 mm in order to be deflected properly.

Production rates are based on optimal operating conditions and may vary depending on stock and environmental conditions. As part of our continuous product improvement program, specifications are subject to change without notice.
