

WorkForce[®] Pro WF-R8590 with Replaceable Ink Pack System

PRINT | COPY | SCAN | FAX | ETHERNET
WIRELESS | PCL/PS

Multifunction

WorkForce Pro

An affordable, A3 multifunction printer to maximize workgroup productivity.

Powered by PrecisionCore[®] — the next generation of inkjet printing technology

Low intervention — Replaceable Ink Pack System lets you print or copy up to 75,000 black and color pages without changing the ink packs¹

Fast output — prints at speeds of 24 ISO ppm (black) and 24 ISO ppm (color)[†]

Versatile media handling — prints up to 13" x 19"; up to 1830-sheet total paper capacity²; features auto duplexing (print, copy, scan, fax) and auto media size detection

Professional-quality results — laser-sharp text and brilliant colors on a wide variety of media

Duty cycle — up to 75,000-page monthly duty cycle³

Drivers and utilities — Universal printer driver; PCL⁴ and genuine Adobe[®] PostScript[®] 3[™] support

Security features — PIN number certification for job release; user control access; printer and network settings via Web Config with printer's IP address; SSL/TLS security; IPsec

Built-in connectivity — includes Ethernet, USB, wireless b/g/n⁵ and Wi-Fi Direct^{®5}; easily print from tablets and smartphones⁶, including remote printing and access to Cloud

Enabled for remote printer data collection — compatible with MPS software solutions from PrintFleet[®], Eci (FMAudit[®]), Print Audit and others

Designed for use exclusively with Epson[®] ink packs.*

† Black and color print speeds are measured in accordance with ISO/IEC 24734. Actual print times will vary based on system configuration, software, and page complexity. For more information, visit www.epson.com/printspeed | †† Maximum pages per minute (PPM) are measured after first page with text patterns in Draft Mode on plain paper. Actual print times will vary based on system configuration, software, and page complexity. | ††† Black and color copy speeds are determined in accordance with ISO/IEC 29183. Actual copy times will vary based on system configuration and page complexity. For more information, visit www.epson.com/copyspeed | 1 Replacement ink pack yields are based on testing with ISO/IEC 24712 patterns with Epson's methodology in Default Mode, printing continuously. Yields may vary considerably for reasons that include images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer maintenance. For print quality, part of the ink from the included cartridges or ink packs is used for printer startup and a variable amount of ink remains in the ink pack after the "replace ink pack" signal. | 2 With optional paper trays. | 3 Monthly duty cycle up to 75,000 is the highest duty a user could expect in a month, based on near-constant operation of a device of this kind. It is not recommended that the device be run at this duty. For best device performance, run the device at the recommended duty of 5000 pages per month. | 4 Not all media types are supported for PCL printing. | 5 Wi-Fi CERTIFIED™: level of performance subject to the range of the router being used. Wi-Fi Direct may require printer software. | 6 Most features require an Internet connection to the printer, as well as an Internet- and/or email-enabled device. For a list of Epson Connect enabled printers and compatible devices and apps, visit www.epson.com/connect | 7 Scan to cloud requires an internet connection, a free Epson Connect account and a destination email address or cloud storage account. For a list of supported cloud services, visit www.epson.com/connect | 8 Only printing and scanning are supported under Windows Server OS. | 9 Some applications and/or functions may not be supported under Mac OS X. | 10 Based on ENERGY STAR TEC measurement methodology; 288 prints/day; actual electricity consumption may vary depending on printer use. For more information, see www.energystar.gov | 11 Internet access is required to install OS X drivers and software. | 12 Display permanence based on accelerated testing of prints displayed under glass in indoor display conditions; album permanence based on accelerated testing of prints in dark storage conditions. Actual print stability will vary according to media, printed image, display conditions, light intensity, temperature, humidity and atmospheric conditions. Epson does not guarantee the longevity of prints. For maximum print life, display all prints under glass or UV filter or properly store them. | 13 Compared to best-selling single and multifunction color laser printers priced at \$1999 (USD) or less as of November 2014. Actual power savings will vary by product model and usage. | 14 For convenient and reasonable recycling options, visit www.epson.com/recycle | 15 SmartWay is an innovative partnership of the U.S. Environmental Protection Agency that reduces greenhouse gases and other air pollutants and improves fuel efficiency.
