UltiMail 95

UNMATCHED QUALITY, PERFORMANCE & VERSATILITY

Intelligently designed for efficiency, the UltiMail 95 processes mail at speeds of up to 120 pieces per minute and enhances the image of your business with crisp 300 dpi print quality. It also fits neatly into any office environment and works quietly without disturbing others.

WORLD-CLASS ENHANCEMENTS

The UltiMail 95 provides an information-based indicia (IBIP) that delivers the highest level of security proposed by the USPS. Shape-Based Pricing compliant for automatic mail processing.

QUICK & EASY POSTAGE RELOAD

FP TeleSet utilizes direct communication from the meter to FP's secure processing center. The entire postage reloading process runs automatically.

CUSTOM MESSAGES & GRAPHICS

Strengthen brand awareness and add greater personalization with up to 9 user-programmable SMS text-based messages.

DIFFERENTIAL WEIGHING

Increase productivity when processing your mixed mail with the time-saving reverse weighing option. When placing several pieces of mail on the scale, then removing one, the UltiMail 95 will automatically calculate the weight of the last piece removed.

CONVEYOR-STACKER SYSTEM

For added convenience, the optional conveyor-stacker handles up to 300 (single-insert) envelopes at one time, eliminating the need to empty small exit trays during high-volume runs.

OPTIONAL MAILING & ACCOUNTING SOFTWARE

Calculate and print Commercial-Based Pricing (CBP) discounts through the meter, Accurately record, analyze and report mailroom expenses, Automatically process USPS® delivery confirmations and much more.
