## Color Image Scanner

### S1100

Compact, easy to use "one touch" scanning!

**ScanSnap  
S1100**

**Easily digitizes your documents!  
Perfect for home or office use!  
A must have for the paperless era!  
Easy to use, "one touch" scanning!**

**One of the smallest mobile A4 scanners in the world\*1**

The ScanSnap S1100 document scanner pushes the limits of size for extreme portability while delivering smooth A4 size document scanning\*2. All you need is your laptop and one USB cable to scan and share your documents anywhere, anytime.

\*1 This statement was true as of October 1, 2010 based on comparisons of A4 document feed type scanners conducted by PFI.  
\*2 The S1100 measures approximately 1/4 the size and less than 1/4 the weight when compared to the ScanSnap S1300.

**Scans plastic cards and other various document types\***

In addition to standard paper types, the S1100 can scan plastic cards like the ones used for membership IDs.

\* Card type ISO 7810, ID-1 format = 86 x 54 mm (supports embossed cards)

**Speedy "one-push" scanning**

The S1100 delivers a snappy 7.5 seconds/page (approximately 8ppm) scanning speed for color A4 documents at resolutions up to 300 dpi.\*

\* The time for scanning speed was measured from the point a page first enters to the point it fully exits the scanner.

**Two selectable paper paths**

Switch S1100's paper output guide to either the folded position for the straight path or the open position for the U-turn path to best suit the document you want to scan.

● **Straight path**

Most suitable for scanning post cards, photos, business cards, plastic cards\*, ScanSnap Carrier Sheet, and common office paper.

\* This applies to standard ISO 7810 ID-1 card types.

● **U-turn path**

Most suitable for scanning common office paper.

**Continuous Document Feeding (CDF Function)**

Even though the S1100 is one of the world's smallest document-feed scanners, you can smoothly scan multiple page documents with remarkable speed. The Continuous Document Feeding function allows you to insert pages one after another without any extra button pressing by detecting when a sheet enters and exits the S1100.

● **Scanning a two-sided document using the CDF Function**

**Seamless linking to cloud services**

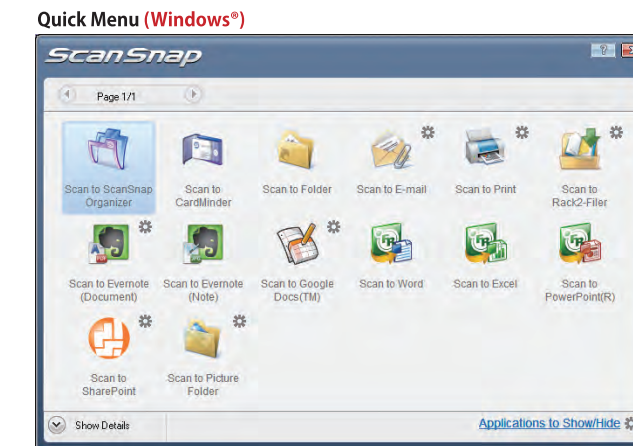

The S1100 is the first ScanSnap to come with a linking function to popular cloud services including Google Docs, Evernote and Salesforce CRM. Now you can seamlessly link and save your scanned image data virtually anywhere, anytime, with ease!

\* Evernote (Windows®/Mac OS) must be installed in the PC. \* A Google account (a free service) is required to use Google Docs. \* The Salesforce CRM linking function is planned to be made available only through an online software update of CardMinder (Windows® only) from the ScanSnap homepage. (Planned release date: February 2011)

**Fast and flexible application of scanned data with Quick Menu**

After scanning is complete, the Quick Menu appears. Navigate through the Quick Menu's easy to use interface to smoothly send your digitized document to an application of your choice.

**ScanSnap Manager V5.1 [ Windows® ]**  
**ScanSnap Manager V3.2 [ Mac OS ]**

**Efficiently organize data from scanned business cards**

Business card management software

**CardMinder™ V4.1 [ Windows® ]**  
**Cardiris™ 3.6 for ScanSanp [ Mac OS ]**

- Scan your collection of business cards into easy to navigate digital business card holders.
- Import the data from your scanned business cards into Excel, Outlook, Address Book (Mac OS) and other database programs for fast referencing and application.

**Generates Microsoft® Word, Excel, PowerPoint® files**

Top-class OCR engine

**ABBYY FineReader for ScanSnap™ 4.1 [ Windows® ]**  
**ABBYY FineReader for ScanSnap™ 4.1 [ Mac OS ]**

Scan editable image data directly to Microsoft® Word, Excel and PowerPoint files.

\* Only Microsoft® Word and Excel are available for Mac OS.  
\* Generated images and text may vary from the original.

**ScanSnap S1100 / Rack2-File V5.0 Bundled Model [ Windows® Only ]**

- Directly file and organize your digitized documents in virtual binders.
- Realistic page flip interface with useful editing functions.
- A powerful tool for uniformly managing image data produced by the S1100 and other devices.

**Automated features for near effortless scanning**

The S1100 features a powerful set of automated image processing functions including Auto deskew, Auto orientation, and Auto color detection. These functions make pre-scan work like sorting pages and changing scan settings unnecessary, so you can scan your documents with minimal effort.

**ScanSnap S1100 Case (Sold separately)**

A convenient carrying case intended for the S1100 is available.
