■Features

■The best cost performer in its class

The fi-6130's ability to scan up to 40ppm or 80ipm in monochrome / grayscale (A4, 200dpi) makes it the top cost performer in its class. Its ability to continuously scan 50 page mixed batch documents containing paper of different weight, quality and sizes enables the fi-6130 to efficiently digitize large volumes of paper documents. On top of this, the fi-6130 is able to scan up to 3 (up to 1.4mm thick) plastic cards at a time.

■Loaded with "intelligent" functions for efficient operation

The fi-6130 is loaded with 2 high end fi-Series functions that enable it to efficiently scan mixed batch documents containing paper of different weights, quality and size.

● **Intelligent multifeed function**
The intelligent multifeed function simplifies pre-scanning preparation and improves efficiency by ignoring documents that tend to trigger false multifeed alerts, such as photo and sticky note attached documents.

● **"Auto-color recognition", "Auto-size recognition" and "Auto-deskew functionality"**
This functionality enables the fi-6130 to automatically recognize the size of scanned documents, correct skewed images and automatically differentiate color images from black and white ones.

■Comes bundled with the "Automatic job separation" function armed ScandAll PRO image capture software

The fi-6130's bundled barcode and patchcode reading functionality enables it to simultaneously scan and automatically separate different jobs with its automatic job separation function. The result is improved digitizing efficiency.

■Imprinter supportability (fi-6130 / fi-6140 option)

Use of the fi-6130's optional imprinter (FI-614PR) enables users to print dates and other information on the back of the original document, thus easing the search for original documents at a later date.

Kofax VRS (Virtual ReScan) Professional for Workgroup bundled
included Virtual ReScan (VRS)
* VRS verification and adjustment features generate perfect images every time.
* The ability to efficiently digitize large volumes of documents dramatically improves scanning productivity.
* Easy to use. Automated functions remove the need for skilled scanner operators.

*1 Supports ISO7810 embossed cards
*2 Capable of scanning up to 3 cards at a time. (Note: does not support multi-embossed card feedability.)
*3 Actual scanning speeds are affected by data transmission and software processing times.
*4 JPEG compressed figures
*5 Maximum capacity varies, depending upon paper weight.
*6 Maximum output resolutions may vary, depending upon the size of the area being scanned and whether the scanner is scanning in simplex or duplex.
*7 Scanning limitations brought about by scanning mode, document size and available memory may occur when scanning at high resolutions (600dpi or higher).
*8 Excluding the ADF paper chute and stacker
*9 PFU Limited, a Fujitsu company, has determined that this product meets RoHS requirements (2005/95/EC)
*10 Capable of scanning documents that exceed A4 sheets in length. However, the scanning of documents that exceed 863mm (34 in.) in length will be limited to using TWAIN at 200dpi or less.

■Options

Description	Part number	Comments
Post Imprinter(FI-614PR)	PA03540-D201	Assists document management by printing numbers, Roman characters and codes on original documents after they have been scanned.
Image Processing Software Option V2.5	PA43402-C22901	This Image Processing Software enables the scanner to efficiently binarize scanned data prior to transmission.

■Consumables

Description	Part number	Comments
Brake Roller	PA03540-0001	Lifetime: Every 200,000 sheets or one year. These rollers separate documents as they are being fed into the scanner.
Pick Roller	PA03540-0002	Lifetime: Every 200,000 sheets or one year. These rollers feed documents into the scanner.
Print Cartridge	CA00050-0262	Lifetime: 4,000,000 printed characters. FI-614PR print head
