

HP Color MFP S970dn

High-volume color printing with a high-value partner

Help increase productivity and drive down costs with the HP Color MFP S970dn—part of a managed print services solution for your high-volume imaging and printing needs. Boost efficiency with fast scanning, high paper capacity, extensive finishing options, a 10.1-inch color LCD touchscreen, and a pullout keyboard—all on an easily integrated MFP with optional HP security and workflow solutions.

Designed for high-volume environments

Help workgroups manage demanding workloads with an MFP designed to excel at the high end of department printing and in light production environments.

- Accelerate business results by printing and copying at up to 70 pages per minute.
- Equip your team to capture documents faster using 150 ipm, two-sided, single-pass scanning.
- Make color printing vibrant, consistent, and affordable for every department. Produce attractive, professional-quality reports and brochures, time after time.
- Spend less time reloading paper with a workhorse MFP that offers high duty cycles and input capacity up to 8,500 sheets.
- Save network space when scanning large files with advanced compression technologies.
- Safeguard the sensitive data sent to your HP Color S970dn MFP with a built-in secure hard disk.

Fine-tuned fleet control

Take the weight off of IT's shoulders with an MFP that includes integrated fleet management, security and document management solutions—all set up by HP Managed Print Services.

- Streamline device integration with HP Web Jetadmin¹—automatically discover and monitor critical information including supplies status, security settings and device usage.
- Gain fresh insight into your printing environment with remote fleet-wide monitoring services.
- Make it easy to print, using the HP Universal Print Driver² with included PCL6 and PostScript protocols.
- The optional HP Access Control solution safeguards confidential documents with automatic, fleet-wide authentication measures that control access and help reduce costs.
- Consolidate and streamline scanning, sending, and tracking processes using the easy-to-integrate, optional HP Capture and Route solution.
- Authenticate, encrypt, and manage print jobs using a centralized security solution, such as SafeCom.

Keep business moving

Streamline your team's workflow and avoid delays with an MFP that keeps up with the pace of business in high-volume environments.

- Print, scan, copy, and fax using the adjustable 10.1-inch color LCD touchscreen—use on-screen options to access controls, zoom in, preview and edit documents in real time.
- Email documents and add keywords directly from the MFP, using the large pull-out keyboard.
- Equip users to work faster by digitizing documents at a touch. Scan at high volumes and send files to email and network folders—straight from the intuitive color touchscreen.
- Increase productivity with professional finishing options.³ Achieve standout results, using automated tools like five-way multifolding, post sheet insertion, trimming, saddle stitching, and hole punching.

¹ HP Web Jetadmin is free and available for download at hp.com/go/webjetadmin.

² The HP Universal Print Driver is free and available for download at hp.com/go/upd.

³ Finishing options must be purchased separately.
