DIGICARDCUTTER

Digital business card cutter

The Intec Digicard cutter is an affordable, automated business card cutting machine that works alongside any high quality digital printing device. Professionally cut business cards, post cards, greetings cards, gift cards, invitation cards and much more at the touch of a button, on a range of media substrates.

Take your business card production to the next level of efficiency and quality, whether you're a small business or large corporation, the compact, portable Intec Digicard cutter will satisfy your every cutting need.

This easy to use, compact digital card cutter features self sharpening blades and innovative cutting and anti image drift technology.

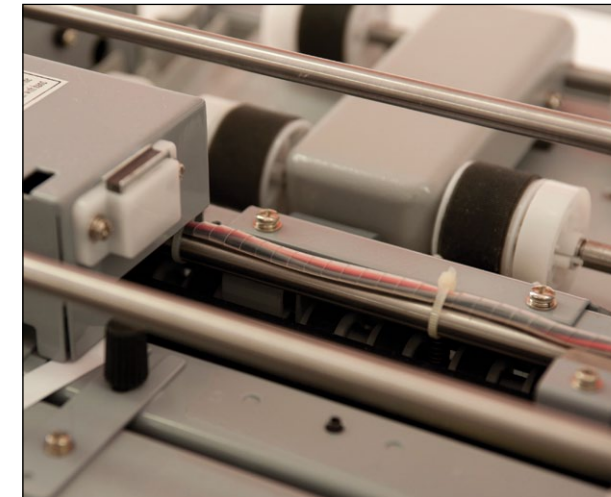

- **Front edge detection, or advanced optical mark reader for automated adjustment on-the-fly to compensate image drift**
- **Cutting precision better than 0.1 mm**
- **Adjustable card reception tray for shorter and longer cards**
- **Self sharpening slitter wheel system and cross cutter**
- **Self compensating for paper density and thickness**
- **Light weight, easily transported to point of use**

The user friendly control panel ensures that you can navigate your way around the menu function with ease

Long lasting slitter wheels and cross cutter blade

Special feed rollers and separator ensure no double feeds or marking even with matt coated papers

Adjustable card reception tray for shorter and longer cards

At the touch of a button, the Intec Digicard cutter's simple to use interface allows you to easily cut a range of different pre-set business card sizes including; 85x45mm, 85x50mm, 85x54mm, 85x90mm 85x95mm, 85x127mm. In addition, the Digicard cutter's intuitive interface and controls make custom card sizes quick and easy to set up. Cut any card length you wish, from 40mm to 150mm in 0.2mm increments with adjustable repeat cuts for the length of your media.

Streamline your business card production workflow with this superb business card cutting solution from Intec. Weighing just 14 kg the compact Digicard cutter is easily transported to point of use and with its compact design it boasts a remarkably small space requirement, fitting virtually anywhere in your working environment.

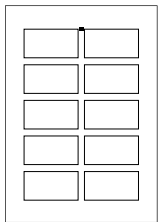

With its very quiet operation and fully interlock guarded cutting area the Intec Digicard cutter makes a welcome addition to your small to medium run business card production workflow.
