

The Professional Workgroup Device for Mono in A3.

The FS-6970DN presents the ideal solution for workgroups looking to print a wide variety of output sizes (up to A3). This fast and compact printer offers an expandable paper capacity of up to 6 paper trays for flexible paper handling. Furthermore, this team player knows how to impress with comprehensive security features and Kyocera's inbuilt ECOSYS® long life technology resulting in exceptional durability and low total cost of ownership.

- ▶ Up to 35 pages per minute A4
- ▶ Up to 17 pages per minute in A3
- ▶ Fine 1,200 dpi printing quality
- ▶ Standard duplex unit for double-sided printing
- ▶ Standard Network, USB and Parallel Connectivity
- ▶ 100-sheet multi-purpose tray
- ▶ 250-sheet universal cassette
- ▶ Direct PDF Print from USB Flash memory device
- ▶ Exceptionally low printing costs in its class

The FS-6970DN includes:

PRESCRIBE IIc

With the Kyocera page design and control language PRESCRIBE IIc, even complex graphics, logos and forms (multipart forms) can be created independently on the system and saved and updated in the printer. Consequently, integration into print files no longer applies. They are only accessed as required and therefore relieve the load on the network.

The KYOCERA Net Viewer

The KYOCERA Net Viewer enables complete monitoring and control of all ECOSYS printers and digital Kyocera multifunction units from any Windows® PC and thus provides ideal network administration. It also supports the standardised SNMP protocol.

Status Monitor and Command Center

The Status Monitor shows the current printers condition and gives direct access to the Command Center for the modification of settings that are not contained in the drivers (e.g. network settings, adjustment of sleep mode or blocking of the control panel).

USB Host Interface for USB Flash Memory

PDF files can be printed directly from a USB Flash Memory (e.g. USB stick) via the USB host interface. Documents are selected directly via the printer's control panel. No computer is required.

Our Unique Printing Technology

ECOSYS stands for ECOlogy, ECONomy and SYStem-printing.

With their long-life components, ECOSYS devices are designed to maximise durability and minimise the total cost of ownership with regard to maintenance, administration and consumables.

The cartridge-free system means that only the toner has to be replaced regularly, and the drum unit every 300,000 prints. The modular design concept allows you to add workflow enhancing functions as required. Integrated system software provides long-term cross-network compatibility. Kyocera's long-life components cost you and the environment less.
