SP 3400SF/SP 3410SF

DESKTOP B/W LASER MFP

Versatile, affordable performance

Small offices and workgroups can rely on this compact system to provide the essential tools required to enhance productivity for a variety of workflows

Compact and Cost-Effective

Whether you run a small business, work from a home office or belong to a small workgroup in a large organization, every user has a unique daily workflow. Some need printing and copying, while others require scanning and distribution. The LANIER® SP 3400SF/SP 3410SF is the ideal choice for value-driven users who need a versatile, capable system that does exactly what they need it to do — at an affordable price. Choose this compact, multifunction product to improve productivity for a variety of application-specific needs.

Work Harder

The Lanier SP 3400SF/SP 3410SF includes the powerful capabilities users need to accomplish more tasks in less time, at a lower total cost.

- Keep work moving with 30 pages-per-minute print speed.
- Minimize waiting. The system offers a warm-up time of less than 30 seconds, and produces its first print in just 8 seconds.
- Print large files quickly with 366 MHz processing speed and a powerful 128 MB on-board memory.
- Handle a broad range of paper to minimize outsourcing costs. The system supports 8.5" x 14" paper from the Standard Tray and thicker stocks (up to 90 lb. Index) through the Standard Tray and 50-Sheet Multi-Bypass Tray.
- Cut paper consumption with standard duplexing* on the Lanier SP 3410SF.

Work Smarter

Depend on the Lanier SP 3400SF/SP 3410SF to ensure high-quality, professional results for document creation, duplication and distribution.

- Accommodate virtually any workflow in a small business, small office, home office or small workgroup with this all-in-one MFP.
- Use the Lanier SP 3400SF/SP 3410SF as a network printer, a local printer, a convenience copier, a full-color "scan-to" station, or a fax machine, depending on your needs.

The cost-effective Lanier SP 3400SF/SP 3410SF supports a wide range of workflows.

SP 3400SF/SP 3410SF

A clean, streamlined control panel makes the Lanier SP 3400SF/SP 3410SF easy to use.

- Distribute scanned files to multiple destinations with ease. Supported capabilities include Scan-to-Email, Scan-to-Folder, Scan-to-FTP and Scan-to-USB memory.
- Reproduce two-sided originals such as driver's licenses and checks on one sheet with ID Copy. It prints the front of the document on the upper half and the back of the document on the lower half.
- Take advantage of a full line of fax features, including a Super G3 fax modem and PC or LAN faxing, which lets you fax documents directly from a PC** without printing.
- Restrict access by configuring the system to require users to enter an ID number before copying, faxing or scanning.

Work Easier

Versatile, compact and cost-effective, the Lanier SP 3400SF/SP 3410SF is extremely easy to own, operate and maintain.

- Maximize productivity with minimal space requirements. This small-footprint system fits virtually anywhere you need it.
- Replacing supplies is simple and can be accomplished in seconds.
- Ensure easy access to toner and paper with a convenient full-front design.
- Find menu functions and configure alert notifications in just seconds with the intuitive control panel. If connected via a LAN, functions can be set and changed from your PC.
- Select the most cost-effective toner for your workflow. Cartridges offer two separate yields so you can balance operating costs with cost-per-page.

*Duplex supports 16 - 28 lb. Bond.

**Supports Windows® PCs only.

Copy two-sided documents onto the same side of a single sheet with the ID Copy feature. For convenient duplicating of auto driver licenses, insurance cards, checks, etc., simply copy the first side, flip the original over and copy the second side.

The All-in-One Cartridges are not only easy to replace, they feature a less expensive, lower-yield choice and a higher-yield option with a lower cost-per-page.

The Total Green Office Solution

Lanier continues its long-standing commitment to developing office solutions with environmentally friendly and superior energy- and supply-saving features, without compromising productivity.
