

HIGH VELOCITY Digital Label Press

THE ONLY LIMIT IS YOUR IMAGINATION

PLS-175i
Digital Label Press

Specifications

The **PLS-175i** is our entry-level and fastest digital label press, with print speeds up to 100 feet per minute.

Muratec's PLS-175i uses high quality, pigment-based inks, which are water, abrasion and fade resistant. A 2400x1200 dpi print resolution gives your labels vibrant colors and razor sharp graphics.

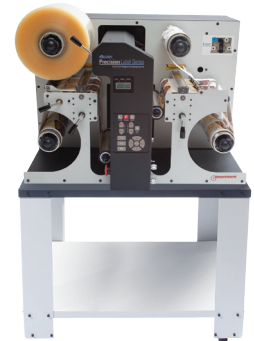

The PLS-175i has a wide breadth of compatible media, including paper, polyester, polypropylene and vinyl stock, either 6.5" - 8.5" wide continuous roll or pre die-cut.

The PLS-175i is compatible with most Windows-based label software. An optional RIP adds even more flexibility to your label production workflow by rendering very small text and line work, estimating label costs, color profiling and spot color replacements. In addition, the optional variable data module enables you to change images, text or barcodes on every label.

The PLS-175i is designed for today's changing business environment. A label is a product's first impression. For companies looking to differentiate themselves, the PLS-175i provides flexibility and creative control, ensuring your product's labels stand out from the competition.

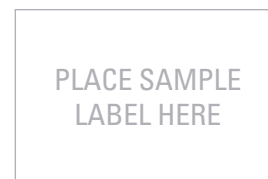

By adding Muratec's **PLS-2112F digital finishing system**, the label design possibilities seem almost endless.

Sure, you can produce exceptional 3" x 5" labels on plain matte stock, but imagine creating true on-the-shelf visual separation with Muratec's PLS-2112F die-cutter. Give your packaging unique shapes, styles and sizes, increasing overall value and prestige in the consumer's mind.

Standard 4" x 4" label

Die-cut 4" x 4" label

PRINTER:	
Print technology	CMYK pigment-based inks
Print speed	Up to 100' / minute (30.48 m / minute)
Print resolution	Up to 2400 x 1200 dpi
Interfaces	Ethernet 10/100/1000 Base-T or USB 2.0
Media width	5" - 8.5" (127 - 215 mm)
Dimensions	40" x 24" x 52" (102 x 61 x 132 cm)
Weight	224.5 lbs. (101.8 kg)
Maximum input roll diameter	14" (36 cm)
Power requirement	200 w voltage input ranges 100-132VAC / 47-63Hz or 180-240VAC / 47-63Hz
Warranty	One year limited liability; optional on-site warranty program available
Software	Compatible with Windows 7, 8, 10 operating systems

Muratec America, Inc.
