# NEOPOST'S IM-16 / IM-16C

## THE SECURE LETTER OPENER

The Neopost IM-16 letter opener eliminates the problem of damaged documents. That's because the IM-16 is designed to keep the contents of your mail safe while it opens every envelope swiftly.

### MAXIMIZE PRODUCTIVITY

The Neopost IM-16 letter opener can operate at speeds of up to 300 letters per minute, so opened mail is delivered faster. Easy-to-use and ultra reliable, it can handle mixed mail without pre-sorting, and opens a wide range of envelope sizes. Its efficiency gives your staff more time to concentrate on more productive work.

### SAVE VALUABLE TIME

There are lots of advantages to getting the right mail to the right desk earlier. Incoming payments are processed faster, boosting your cash flow. Customer queries are answered faster and orders are met sooner, enhancing customer satisfaction and the image of your business.

### PROTECT VALUABLE CONTENTS

While conventional letter openers can easily damage contents, the Neopost IM-16 uses an innovative method to neatly slit one side of the envelope, leaving no sharp borders. This means the contents are left undamaged and ensures safe handling. And its unique anti-jamming device easily copes with paperclips and staples.

### NO TIME TO WASTE

With its innovative opening method, the IM-16 eliminates waste, leaving no messy scraps of paper littered around the office. Its compact size means you can use it where desk space is limited, and also makes it easy to move and store.
