IS-440

MOVING YOUR MAIL

When it comes to getting a job done, thriving businesses count on reliable processes that add value and streamline performance. The Neopost IS-440 delivers practical solutions that offer maximum versatility to give you the results you need.

With the Neopost iMeter™ postage meter and powerful Apps to manage your business, the IS-440 is always ready to handle the mail processing needs of your business.

Easy to operate and convenient to use, this system with whisper-quiet operations is fast and efficient. Plus, with the smallest footprint in its category, you'll appreciate the sleek ergonomic design that easily integrates into your business environment.

Automatic feeder and sealer quickly processes stacks of envelopes from 3.5" x 5" to 10" x 13"

FAST, ACCURATE WEIGHING AND RATING

Using Differential Weighing, simply place all your mixed weight mail on the weighing platform, remove an envelope and the correct rate is calculated. With Smart Start technology, each time an envelope is removed from the weighing platform in differential weighing mode, the auto feeder starts and is ready to process mail or automatically dispense a Secure Stick postage label.

NEVER OUT OF INK

Managing ink couldn't be easier. The IS-440 uses a long-life cartridge and prints a smaller indicia barcode, IBI Lite, which optimizes ink yield and minimizes replenishment. Low ink email alerts can be set up through your myNeopost account, ensuring you know when it's time for reordering. And the Click n' Snap design of the cartridges makes change-over simple.

UNDERSTANDING RATES HAS NEVER BEEN EASIER

Don't be confused by postal rates. Let the IS-440 Rate Wizard give you a hand. Save time and eliminate keystrokes when selecting the mail class you need from the IS-440 shortcut keys. From single envelopes to larger packages, you have the flexibility you need to weigh and manage your mail with ease.
