

Dynamic connection

Digital Mailing System
with IntelliLink® Technology
DM925™

Powerful technology

Your mail center is a vibrant and critical part of your business. It works with you to promote your business, get new customers, strengthen relationships with existing customers, and drive and collect revenue.

High volume mailers need a mailing system they can count on. The DM925™ Digital Mailing System meets the demands with many advanced features such as Mixed-Mail Feeding, Shaped Based Rating, and Weigh-on-the-Way™. It processes all types of mail of various weights and sizes – eliminating costly multiple processing steps.

Powerful and simple. Innovative and integrated. The DM925™ Digital Mailing System can grow with your business. Put the advanced power of Pitney Bowes technology to work for you.

Demand excellence — and get it

True mixed mail feeding – Eliminate manual sorting of varying types of mail. Handles mail ranging from postcards to 10"x13" flats up to 3/4" in thickness – in a single stream.

Weigh-on-the-way™ – Automatically process mixed weight and mixed sized material up to 16 oz. in a single operation. This technology works together with Shape Based Rating functionality. Each piece is weighed and measured, the proper postage is calculated and imprinted at speeds of up to 120 letters per minute.

Differential weighing – Place mixed mail pieces on the scale and as you remove a single piece from the stack, the correct postage is calculated and printed.

Interfaced weighing – Configure the best system for your mailing application by choosing from four weighing options: 15 lb., 30 lb., 70 lb. or 149 lb.

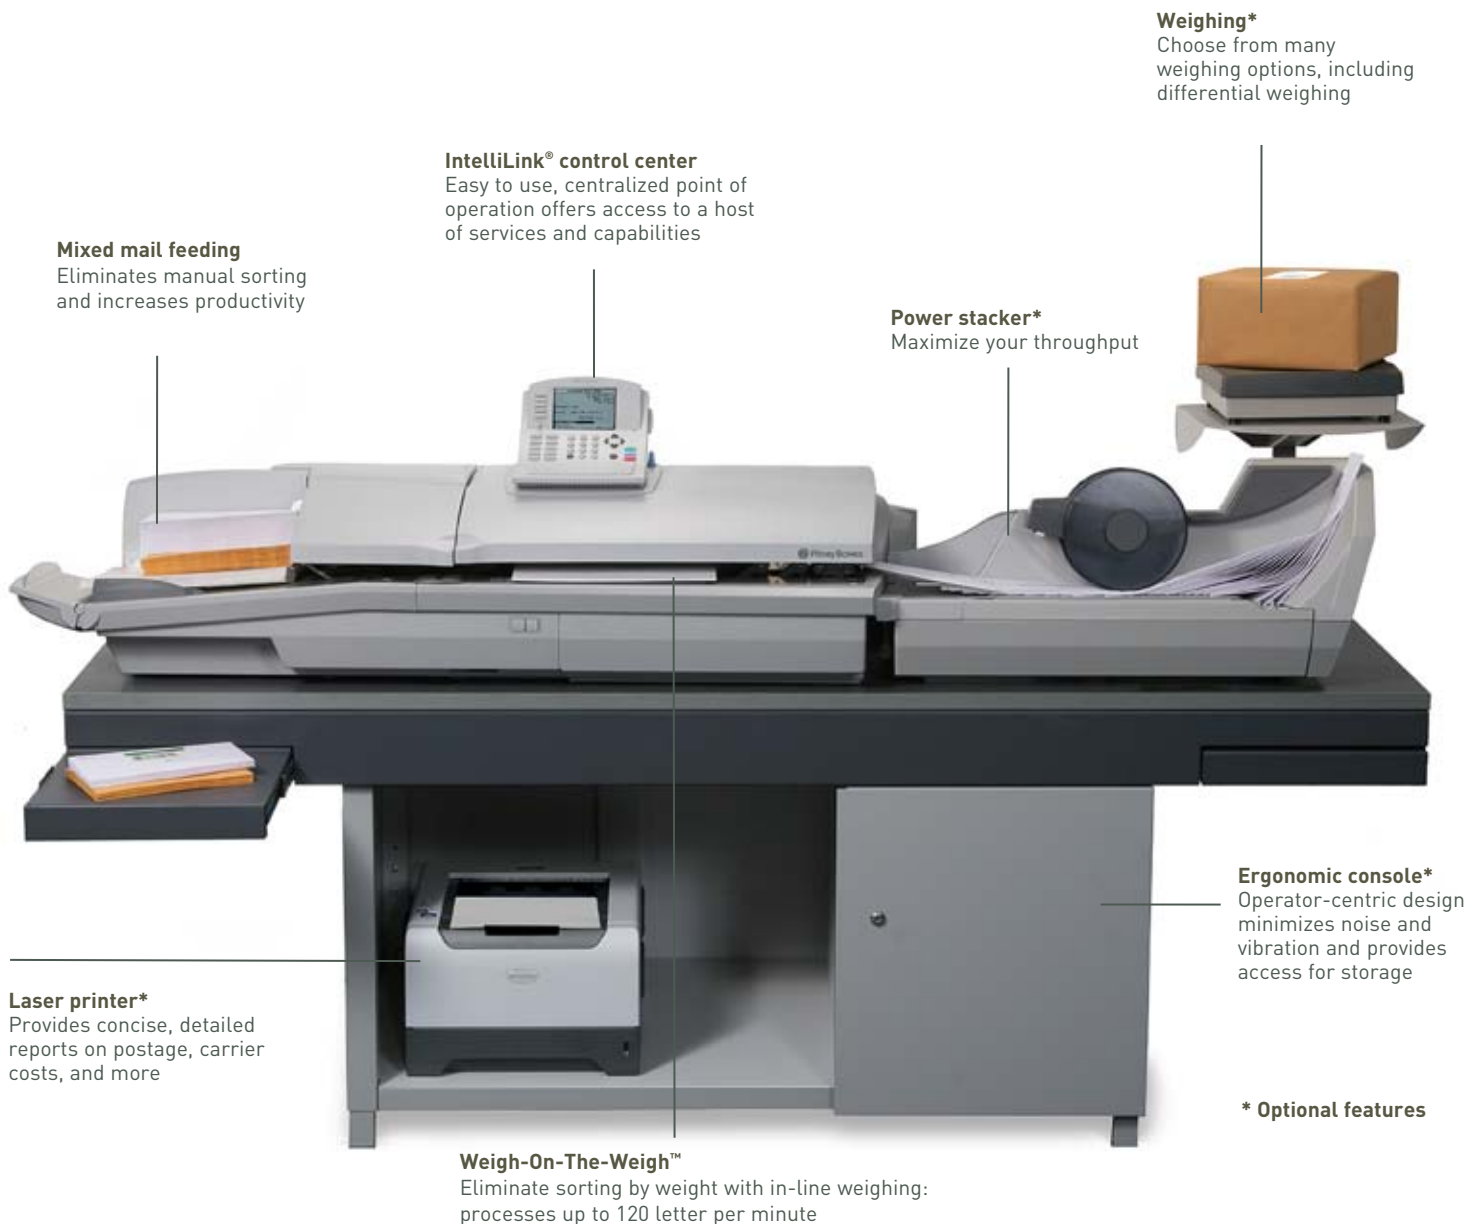

Carrier rates – Realize rate shopping flexibility between carriers with Standard Rates for UPS and FedEx.

Postage pass – Never run out of postage with automated postage refills.

Dual tape capability – Applies either gummed or pressure sensitive tape to virtually any material.

Time/Date stamp – Mark incoming mail as "RECEIVED" with date and time to expedite handling.

Job presets – Doing a lot of routine jobs? No problem! The system can store in memory up to 25 of your everyday jobs so that even new operators can run the application easily.

Wise envelopes

Your mail speaks for your business. Project a professional image with:

Custom messaging – Print a customized message with up to five lines of text to ensure openability.

Envelope advertising – Print an ad or graphic on every envelope while processing your mail. Personalize your envelope with optional custom ads or graphics.

Sharp digital printing – The inkjet printing process creates crisp, razor-sharp images.

Gain accountability

Make it easy to keep an eye on all your postage expenses with the DM925™ Digital Mailing System.

INVIEW™ accounting

Tracks and displays expenses for up to 100 accounts. A built-in keypad allows the full naming of accounts, and speed codes provide for quick selection as well as 15 operators, transaction level data and enhanced reporting capabilities. Expansion options for up to 300 accounts are available.

Expanded accounting

Increase your reporting capabilities and maximize visibility and control when you integrate with Budget Manager™ or Business Manager™, our PC-based accounting solutions.

Envelope Ads add messages to your mail with a choice of downloadable envelope ads

Secure Postage Printing

Print USPS® compliant Information Based Indicia (IBIP) secure postage printing and apply downloadable postal inscriptions

Operational authority

Easily activate and control all of the functions of the DM925™ Mailing System from the IntelliLink® control center. This powerful interface gives you access to a suite of capabilities that put you in control.

Track and account for postage expenditures. Direct the system to read a barcode with the mailer's cost center information or key the data directly into the control center for accurate postage account management.

Download software upgrades when you need them, USPS® rate updates, a full range of USPS® services, optional system feature enhancements and new capabilities on the unique Pitney Bowes network.

The system is designed for use by any level operator. With easy to read prompts, it guides the user with step-by-step instructions making it quick and easy to get your mail out the door, and help with end of day mailing challenges.

Constantly connected

Get speedy downloads with 24/7 high speed internet connectivity. Realize accurate mail piece tracking when you upload Confirmation Services™ transactions.

USPS® and carrier rate updates

Secure carrier and postal rate, class and service changes, downloaded directly to your system when you need them.

Pay your way postage

Pre-pay for postage and earn interest on the balance of your reserve account or get a postage advance with 24/7 access.

Download improvements

Get instant updates to your DM Series™ operating system for maximum performance and productivity while eliminating near term obsolescence.

Download USPS® Confirmation Services™

E-Return Receipt™ – Get a substantial discount and eliminate the need to fill out the traditional Return Receipt™ “green card”. Combine E-Return Receipt™ with Certified Mail™ to get both proof of mailing and proof of delivery.

Delivery Confirmation™ – Get confirmation on the date, Zip Code™ and time the mail piece was delivered.

Signature Confirmation™ – All the advantages of Delivery Confirmation™ with the additional benefit of requiring the recipient's signature. A proof of delivery record including the recipient's signature, is maintained by the USPS® and is available by fax, mail or e-mail.

Certified Mail™ – Obtain delivery details online when you receive an optional proof of mailing as well as a unique tracking number.

Features on demand

Envelope ads – promote your business, your favorite charity or celebrate a holiday when you download.

Postal inscriptions are required to meet USPS® regulations for postal discounts and can be downloaded when considering a new class of mail.

Virtually unlimited accounting

Money management at its best. Whether you want to track 1 or 1,000 accounts, the flexibility is yours. Allows you to effectively manage, track and charge-back departmental or client costs. Download departmental accounting software to expand your accounting capacity.
