

Force Flex

The ultimate feeder

Introducing the Force Flex, the ultimate feeder that increases speed, functionality and productivity. Force Flex Technology stabilizes the paper for a smooth transition through the feeder and allows up to 60,000 cycles an hour at variable thicknesses within the same feeding stack.

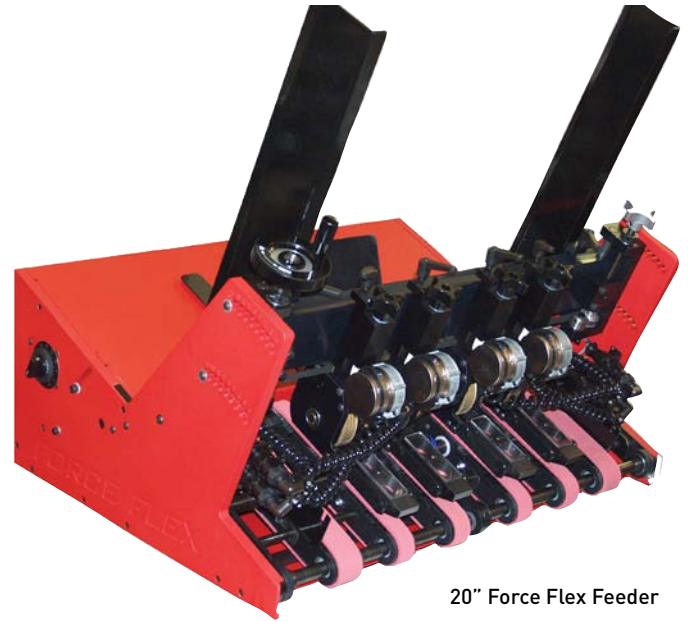

Utilizing the patented Dynamic Rotation Technology™ separators between the positional belts applies “FLEX” to the paper helping extend the life of consumable products. Included is the “SHAKER” plate, keeping product square while assisting for a consistent feeding.

With its ability to be used with continuous feed, inkjet, tabber, folding, labeling, plus other applications, the Force Flex gives you the ultimate in feeder flexibility.

Additionally, with one quick operator adjustment, the Force Flex offers Precision Nip Technology.

Force Flex Advantages

- > FLEX separation, Precision Nip separation, and Dynamic Rotation Technology all in one
- > Cycles up to 60,000 pieces/hour
- > 2 minute belt changes
