

HIGH-SPEED MONOCHROME DOCUMENT SYSTEMS

The Sharp MX-M905 monochrome document systems deliver cutting-edge integration and powerful productivity.

WORLD CLASS INNOVATION WITH UNSURPASSED RELIABILITY

The Sharp MX-M905 high-speed monochrome document systems offer advanced technology and features that will streamline your document workflow like never before. From walk-up office environments and corporate workgroups, to Central Reprographics Departments (CRDs) and copy rooms, the MX-M905 provides world-class efficiency with intuitive operation.

These high-powered document systems have been designed to handle the rigors of high volume environments with the user friendliness of a workgroup MFP. These workhorses are a perfect fit where productivity and reliability are critical and ease of use is essential.

Key Features

- Ease of Use Sharp's customizable touchscreen display offers a user-friendly graphical interface with a clean design, simplified Easy Modes and integrated operation guides.
- Integration Equipped with the latest version of Sharp OSA[®] technology for easy integration with network applications and cloud services, these models can unlock advanced capabilities to help you better manage your workflow.
- Flexibility Offers a wide range of paper handling and finishing options to accommodate virtually
 any environment, including small CRDs and copy rooms.

The MX-M905 high-speed monochrome document systems offer customers powerful multitasking features enabling them to quickly execute the ever-changing workflow tasks of today's busy office environments. And with Sharp's industry-leading security features, you can rest assured that your intellectual property is protected from the first day of operation to the time of trade-in.

INTUITIVE DESIGN WITH POWERFUL FEATURES

EASY-TO-USE

ENHANCED INTEGRATION

WIRELESS CAPABILITY

VERSATILE PRODUCTIVITY

Advanced features provide enhanced performance and improved workflow efficiency.

- Modular design provides a wide variety of configurations from basic high-speed copying and printing to professional folding and booklet making.
- Scan Preview feature offers on-the-fly page editing with easy fingertip navigation.
- 250-sheet Duplex Single Pass Feeder (DSPF) scans documents at up to 240 images per minute.
- Triple air-feed paper input option offers high reliability and is virtually maintenance-free.

- Large 10.1" (diagonally measured) customizable touchscreen display with a clean design enables easy access to features and functions when setting up jobs.
- Offers 8,500-sheet maximum paper capacity and media support up to 110 lb. cover stock (300 gsm) with optional paper feed units.
- Standard high-performance print controller with included PCL[®]6 and true Adobe[®]
 PostScript[®]3™ printing languages.
- True 1200 x 1200 dpi printing provides beautiful images and enhanced clarity for fine details such as small text and graphics.
- Easily access popular cloud applications, including Microsoft[®] OneDrive[®] for Business, SharePoint[®] Online and Google Drive™ with Sharp's Cloud Connect feature.
- With Email Connect, scan to email is seamlessly integrated with Microsoft Exchange and GmailTM.
- Standard Job Management features make it easy to print on-demand as well as view jobs, retain jobs, combine jobs, select print settings and more.
- Supports the Sharp OSA development platform, enabling businesses to easily integrate with network applications and cloud services.
- Convenient **End-of-Lease feature** can erase all files on the hard disk drive, all user data, job status data and address book data at trade-in time.

SIMPLICITY HELPS PROVIDE ULTIMATE PRODUCTIVITY

A high-resolution customizable touchscreen helps you navigate smoothly through advanced MFP functions.

Built-in wireless network interface offers convenient scanning and printing from mobile devices.

A highly-rigid frame design helps better protect and isolate critical machine components. This also ensures increased reliability and durability in order to withstand heavy use from high-speed and high-volume output.

From intuitive operation to unsurpassed productivity, the MX-M905 is equipped to provide optimum results.

Simple and Intuitive Operation

From the most basic of copy functions, to the most complex scan jobs, the MX-M905 will perform them with ease and efficiency. Use one of the **Easy Modes** for fast, simple operation, with basic functions displayed in **large, clearly-labeled tiles** and keys. And for more advanced features, just touch the "Details" button — it's that easy.

A "Well-connected" Device

Connecting a multifunction printer (MFP) to your wireless network and accessing it from mobile devices has never been so easy with the MX-M905 standard wireless networking features. Print from or scan to popular cloud services such as **Microsoft OneDrive for Business**, **SharePoint Online**, and **Google Drive** with Sharp's **Cloud Connect** feature. **Single Sign-on (SSO)** support for accessing these services makes scan-to-folder and scan-to-email operations simpler than ever. Even printing from your desktop is made easier with Sharp's **Serverless Print Release** function. **Easily send a job to one device, and print it on another** when and where it's most convenient for you.

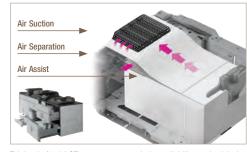

Intuitive Job Management

Sharp's Document Filing System provides a 1TB hard disk drive to store frequently used files. With the **thumbnail preview mode, stored jobs can be located and retrieved quickly**. Easily reprint retained jobs, combine jobs, repaginate jobs, edit pages and more.

Robust Paper Handling For Busy High-Volume Environments

Sharp understands the importance of productivity – that's why the new MX-M905 high-speed monochrome document systems offer up to **8,500-sheet paper capacity** and support media types up to **110 lb. cover** (300 gsm) with paper input options. An available 5,000-sheet large

capacity paper input option with air-feed technology, helps maximize reliability and minimize down time. A feature typically found on production devices and printing presses, the triple air-feed system directs air flow with precision accuracy to ensure proper paper handling. And to handle those large originals, a standard 250-sheet dual head document feeder can scan up to 240 images per minute.

Triple air-feed LCT paper trays maximize reliability and minimize downtime. Pneumatic sensors maintain consistent air flow.

FLEXIBLE OPTIONS THAT ARE ESSENTIAL FOR BUSINESS

Versatile and Customizable To Fit Your Needs

The MX-M905 high-speed monochrome document systems offer flexible paper handling and finishing options to accommodate virtually any environment. *

MX-M905 shown with 3,500-sheet large capacity cassette, 50-sheet Staple/Saddle Finisher and 100-sheet bypass tray.

MX-M905 shown with Curl Correction Unit, Inserter, Multi-Folding Unit, 100-sheet Staple Finisher, 5,000-sheet large capacity trays, 500-sheet multi-bypass tray and status indicator.

Modular Options Make It Easy To Build the System of Your Choice

Options for the MX-M905 enable businesses to choose from several high performance finishing systems that offer up to 100-sheet stapling, professional saddle stitch booklet making and three-hole punching. More advanced configurations include a professional punching system, a two-tray inserter, a multi-folding unit and a trimmer unit.

ENHANCED COLLABORATION FOR STREAMLINED WORKFLOWS

Scan and convert documents to popular file formats seamlessly with built-in OCR function.

Distribute, access and print documents more easily.

With Serverless Print Release technology you can securely print a job and release it from any of six supported models.

Powerful document workflow solutions help you work more efficiently.

Simplify Managing Different File Types with Intelligent Image Processing

Easily and quickly scan and **convert documents** to popular file formats including **Microsoft Word, PowerPoint®** and **Excel®**, as well as a variety of **PDF formats** such as Searchable PDF, Encrypted PDF, Compact PDF and others. You can also direct print these same file types from thumb drives, cloud applications and mobile devices. This function is enabled via **DirectOfficeTM** technology. With this much flexibility, you can speed through your workflow tasks faster than ever!

Distribute, Access and Print Your Documents with Ease

Sharp makes it easy to send documents to the destinations you need, and goes beyond traditional network scanning with standard **Email Connect** and **Cloud Connect** features. With Email Connect, scan to email is seamlessly integrated with Microsoft Exchange and GmailTM. With Cloud Connect, you can easily scan to and print from **Microsoft OneDrive for Business, SharePoint Online** and **Google Drive** without additional middleware.

Scan and Print Files Easily from Mobile Devices

These monochrome document systems also make it easy to scan and print files from tablets and smart phones using **Sharpdesk® Mobile**, a free downloadable app available for most common mobile devices.¹ These models also support popular mobile technologies such as **AirPrint®**, **Android™ printing framework** and **Google Cloud Print™**. You can print locally from your device or download files from supported cloud applications. Since the MX-M905 can connect to mobile devices through a **point-to-point wireless connection**, there is no interference with your corporate network.

Flexible Printing Solutions Help Speed Up Your Office Productivity

The MX-M905 comes standard with **true Adobe PostScript 3** and **PCL 6** printing systems to help you speed through all of your output needs with accuracy. To help streamline your jobs, these powerful performers include **Serverless Print Release technology**, enabling you to securely print a job and release it from up to six compatible models on your network. And with Google Cloud Print web printing service, you can print from Chromebook[™] notebook computers, PCs and more from virtually anywhere.

Simplify Complex Business Workflows

Sharp OSA technology can help your business leverage the power of your network applications, back-end systems and cloud services. Easily automate complex processes and help eliminate redundant tasks. Create your own custom integrations or take advantage of the growing portfolio of Sharp OSA applications available from Sharp Partner Program members.

¹ Go to www.sharpusa.com for a list of supported devices and operating systems.

² Some features require optional equipment and/or software/services.

TAKING CARE OF BUSINESS SAFELY AND SECURELY

Manage your device, help safeguard your data, help protect your business.

Businesses require that the devices on their networks are properly managed and closely monitored to ensure their data remains uncompromised. To help achieve this, the MX-M905 offers powerful device management utilities, web-based customer training and advanced, **multi-layered security features**.

With the Sharp Remote Device Manager (SRDM)*, administrators can take control of system features and simplify installation and management. SRDM makes it easy to view service logs, click counts, history reports and more. Its event-driven service alerts help you monitor the device and maximize uptime. The Remote Front Panel feature allows administrators to view and control the machine's LCD panel from a PC to troubleshoot issues and train operators remotely. Sharp also offers both built-in and additional auditing hardware and software to control, access and track usage of each device on the network.* And with My SharpTM, you get a dedicated training website customized to your model and configuration to help you understand and utilize all of the advanced features of your Sharp product, including those for security.

To help protect employees' privacy and intellectual property, the MX-M905 is armed with a variety of security measures, including features such as data encryption, data overwrite and data erase. Multiple security protocols help restrict access to the device while in operation, and a convenient End-of-Lease feature overwrites all data at time of trade-in. Authority Groups help manage and restrict specific copying, printing, scanning and fax features to safeguard data and control costs. The Admin Audit Log feature allows IT administrators to track activity on the device. Confidential Printing and Secure Fax Release help ensure that sensitive

documents are kept safe by requiring users to enter a PIN code in order to print them. For advanced security, these models support Active Directory user authentication and secure single sign-on to network folders and emails. For an optimized workflow experience, ID card authentication can also be activated.

These scalable security offerings aim to **protect your intellectual property**, preserve confidential information and help your business meet regulatory requirements including the Health Insurance Portability and Accountability Act (HIPAA) and the Family Educational Rights and Privacy Act (FERPA). For additional information visit: www.sharpusa.com/security.

ENVIRONMENTAL COMMITMENT

An Environmentally Responsible Approach to Product Design

Sharp is committed to environmental sustainability and corporate responsibility including planning, design, manufacturing, distribution and product end-of-life management. Sharp adheres to Green Products Guidelines in pursuit of these commitments. These guidelines include designing products that consume less power, using recycled materials, reducing the amount of material used in products and packaging, and labeling the type of materials used. Sharp also aims to design products that are upgradable, easy to repair and easy to take apart for recycling.

The MX-M905 document systems are ENERGY STAR® qualified and RoHS compliant to restrict the use of hazardous substances. Sharp MFPs are EPEAT® registered.

Toner Recycling Program

As part of our commitment to helping preserve the environment, Sharp offers our customers zero-waste-to-landfill recycling for Sharp consumables, including cartridges, bottles, toner collection containers and drum units. Sharp encourages customers to recycle their used Sharp toner cartridges in bulk by providing a pre-paid recycling kit for their return to our facility.

Environmental Leadership

As a testament to our commitment to the environment, Sharp is a multi-year winner of the ENERGY STAR annual Excellence in Energy Proficiency Product Design. Sharp is also a multi-year winner of the SmartWay[®] Excellence Award which recognizes companies for conserving energy and lowering greenhouse gas emissions in logistics and transportation.

For more information about Sharp's environmental leadership including information about energy efficient products, electronics or toner cartridge recycling, please visit www.sharpusa.com/environment.
