

Xerox® Instant Print Kiosk

Document services, where and when you need them.

FEBRUARY 2020

xerox™

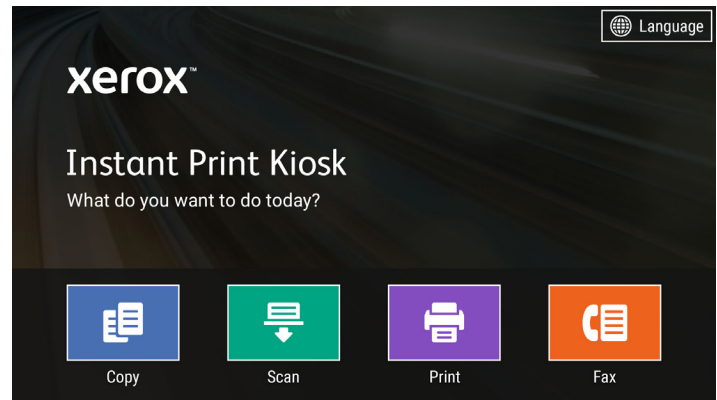

On-demand document processing, effortlessly delivered.

Xerox® Instant Print Kiosks are an easy way to provide more value to your customers, students or guests. These self-service printers deliver fast, simple and secure print, scan, copy and fax services. Secure payment is taken right at the machine and works with credit and debit cards plus other popular methods including Apple Pay and Google Pay*. And they require almost no support from your staff — all you need to do is refill paper and consumables when needed.

WALK-UP SIMPLICITY MEETS MODERN CAPABILITY.

Users today need more than just traditional printing and copying. Xerox® Instant Print Kiosk offers:

- Fast, intuitive copying, scanning, printing and faxing for walk-up users
- Compatibility with mobile printing applications
- Access to DropBox™, Google Drive™, SharePoint™, OneDrive™ and EFI™ PrintMe® cloud locations
- Flexible payment via credit card, Blackboard and cboard student cards, Apple Pay and Google Pay*

The 10.1-inch touchscreen provides four simple choices. Step-by-step instructions help users complete jobs quickly with no help from support staff.

Key Industries for Xerox® Instant Print Kiosk

Regardless of your industry, Xerox® Instant Print Kiosk is a win-win for you and your customers, students or guests.

PRINT-FOR-PAY SHOPS

- Shift responsibility for everyday document processing to your customers
- Free up your staff to concentrate on more complex, high-value work, such as design
- Provide faster service for walk-up users
- Expand your customer base and increase repeat business

EDUCATION

- Provide fast, convenient document processing services to students, staff and visitors anywhere on campus
- Set your own prices based on profitability goals and student needs to generate revenue or provide a low-cost benefit to users
- Accept payment from the campus payment systems you already use like Blackboard and Cbord

HOSPITALITY

- Make your guests' stay easier with on-site document processing services
- Increase the value potential of each guest, conference and event you host
- Reduce on-site business center overhead and speed checkout by simplifying charges
- Free up staff by simplifying checkout for staff and customers

PUBLIC SPACES AND RETAIL

- Provide current customers with the document processing services they need where they already shop
- Earn more from each customer without increasing your costs or workload
- Increase foot traffic and attract new customers who wouldn't normally have visited your establishment

Xerox® Instant Print Kiosk Features

- 1 Powerful multifunction capabilities with printing as fast as 55 pages per minute for black-and-white and 50 pages per minute for color. Plus, exceptional color print quality at up to 1200 x 2400 dpi.
- 2 Dual-head, single-pass scanner simultaneously scans both sides of two-sided documents at up to 133 impressions per minute and up to 600 x 600 dpi.
- 3 10.1" color touchscreen user interface features bright, easy-to-understand icons for copy, print, scan and fax functions. Print Preview lets users confirm the accuracy of their print jobs before completion.
- 4 Included payment card reader integrates FreedomPay and EFI™ Self-Serve AdminCentral pricing, reporting and secure payment system.
- 5 XMediusFAX® cloud fax service enables fast, secure faxing with no analog phone line required.
- 6 USB thumb drive port for print-from and scan-to capability.
- 7 Front door for securing consumables.
- 8 Office Finisher LX provides more output options, including 2,000-sheet stacking; 50-sheet, 2-position stapling; optional hole punch.
- 9 Pin lock for security

XEROX® INSTANT PRINT KIOSK WITH EFI™ SELF-SERVE ADMINCENTRAL

EFI™ Self-Serve AdminCentral is a cloud-based management portal that lets you configure, maintain and manage transactions on all your kiosks at once through a web browser. Payment-card authorization services are managed with the included FreedomPay card reader. All payments are protected with the latest chip authorization and PCI Point-to-Point Encryption™ (P2PE).
